

Backyard Poultry Calendar

Free backyard poultry calendar from USDA offers owners tips on keeping their birds safe from avian influenza and other diseases.

12/7/2007

If you're a backyard poultry owner, a new calendar from the U.S. Department of Agriculture can help you learn more about how to protect your birds from infectious diseases like as avian influenza (AI).

The free calendar for backyard poultry owners offers useful information about protecting poultry from AI and include tips on what to do should poultry owners suspect that their birds are infected.

You'll also enjoy the full-color photos of poultry and other birds.

You can request a free copy of the latest calendar online.
