

UTV Buyer's Guide

Learn what you need to know before buying your first farm UTV.

The first utility vehicle you buy for your small-farm can be an exciting purchase, but before you dish out the dough, consider what features you want your UTV to have.

The Hobby Farms editorial team hit the road to attend the 2010 National Farm Machinery Show in Louisville, Ky., where they spoke with Kubota regional sales manager Charlie Egli about buying UTVs. Egli guides UTV buyers on what to look for in their farm purchase from standard features (such as size, horsepower and fuel type) to safety features and special attachments.

Watch the video below to get your UTV-buying experience started on the right foot.
